CMI according to the overall regional average weight			1,6008			1,6254			1,6350			1,5899			-
CMI according to the regional average weight for the oncologic pathology			1,7090			1,7352			1,7577			1,7165			-

Legenda:

CMI=Case Mix Index

AW=Average weight

DRG=Diagnosis Related Group

* Case Mix Index calculated according to regional AW in keeping with Lombardy Region Publications

** It was not possible to calculate CMI for 2007, as regional AW data are at present (May 22, 2008) not yet available at Lombardy Region website (<http://www.sanita.regione.lombardia.it>)
