Proliferation-Related Pathways in Lung Cancer: Lessons Learned from 101 Consecutive Cases

Early Stage NSCLC, and to Establish a Biobank for Ongoing Research

Small-Cell Lung Cancer: Multiple Inherited Susceptibility Alleles Linked to Lung Cancer

Plasma DNA Quantification in Lung Cancer Computed Tomography Screening for Lung Cancer Using Low-Dose Spiral CT: 10 Years Later, PET Scan Contribution in Chest Tumor Management: A Systematic Review

Second Italian Consensus Conference on Malignant Pleural Mesothelioma: State of the Art and the Recommendations

Approach to Tumor Characterization

Extraluminal Cardiac Paraganglioma: Unexpected Diagnosis of a Rare Tumor

MicroRNA Signatures in Tissues and Plasma Predict Development of Lung Adenocarcinoma Clinical Stage

Proliferation: Cytoskeletal Effects of Different-Wavelength Lasers versus Electrocautery

Proliferation-Related Pathways in Lung Cancer: Another Independent Predictor of Lung Cancer?

Second Italian Consensus Conference on Malignant Pleural Mesothelioma: State of the Art and the Recommendations

Approach to Tumor Characterization

Extraluminal Cardiac Paraganglioma: Unexpected Diagnosis of a Rare Tumor

MicroRNA Signatures in Tissues and Plasma Predict Development of Lung Adenocarcinoma Clinical Stage

Proliferation: Cytoskeletal Effects of Different-Wavelength Lasers versus Electrocautery

Proliferation-Related Pathways in Lung Cancer: Another Independent Predictor of Lung Cancer?

Second Italian Consensus Conference on Malignant Pleural Mesothelioma: State of the Art and the Recommendations

Approach to Tumor Characterization

Extraluminal Cardiac Paraganglioma: Unexpected Diagnosis of a Rare Tumor

MicroRNA Signatures in Tissues and Plasma Predict Development of Lung Adenocarcinoma Clinical Stage

Proliferation: Cytoskeletal Effects of Different-Wavelength Lasers versus Electrocautery

Proliferation-Related Pathways in Lung Cancer: Another Independent Predictor of Lung Cancer?

Second Italian Consensus Conference on Malignant Pleural Mesothelioma: State of the Art and the Recommendations

Approach to Tumor Characterization

Extraluminal Cardiac Paraganglioma: Unexpected Diagnosis of a Rare Tumor

MicroRNA Signatures in Tissues and Plasma Predict Development of Lung Adenocarcinoma Clinical Stage

Proliferation: Cytoskeletal Effects of Different-Wavelength Lasers versus Electrocautery

Proliferation-Related Pathways in Lung Cancer: Another Independent Predictor of Lung Cancer?

Second Italian Consensus Conference on Malignant Pleural Mesothelioma: State of the Art and the Recommendations

Approach to Tumor Characterization

Extraluminal Cardiac Paraganglioma: Unexpected Diagnosis of a Rare Tumor

MicroRNA Signatures in Tissues and Plasma Predict Development of Lung Adenocarcinoma Clinical Stage

Proliferation: Cytoskeletal Effects of Different-Wavelength Lasers versus Electrocautery

Proliferation: Cytoskeletal Effects of Different-Wavelength Lasers versus Electrocautery

Proliferation-Related Pathways in Lung Cancer: Another Independent Predictor of Lung Cancer?
EMIL4-ALK rearrangement in non-small cell lung cancer and non-tumor lung tissues.

Sex differences in epithelium phenotype in smokers without pulmonary obstruction.

Elonged remission of disseminated atypical adenomatoid pulmonary neoplasms.

Transcription deregulation at the 15q25 locus in association with lung adenocarcinoma risk.

Atypical adenomatoid pulmonary neoplasms: outcome variability at multidetector computed tomography screening.

Highly tumorigenic lung cancer CO33+ cells display stem-like features and are spared by cisplatin treatment.

GG practice guidelines on germ cell tumor in adult males:

Lung function predicts lung cancer risk in smokers: a tool for targeting screening programs.

Benchmarking lung cancer mortality rates in current and former smokers.

87 Detection of t(9p) and t(17p) mutations in preneoplastic lesions of the lung. Cancer Res. 52:6079-6082, 1992.
