## Partecipazione a Protocolli di Ricerca Clinica e Sperimentale

- 1 A phase I/II trial of active specific immunotherapy in patients with metastatic melanoma using autologous tumor - derived heat shock protein-peptide complex-96 (HSPPC-96) vaccine. (Responsabile Prof. G. Parmiani - INT Milano).
- 2 Studio clinico di fase I/II per la valutazione dell'effetto adiuvante di Interferone- $\alpha$  nella vaccinazione di pazienti affetti da melanoma stadio IV con i peptidi MART-1:26-35 (27L) e gp100:209-217(210M). (Responsabili Prof. G. Parmiani, D.ssa L. Rivoltini - INT Milano).
- 3 Open label, non randomized phase II study of Heat Shock Protein - Peptide Complex (HSPPC-96) in combination with GM-CSF and IFN $\alpha$  in subjects with stage IV resectable malignant melanoma. (Responsabile Prof. G. Parmiani - INT Milano).
- 4 A phase I-II study of active vaccination with autologous T-lymphocytes transduced with HSV-TK and MAGE-A3 in patients with metastatic melanoma and expression of MAGE A3. (Responsabile Prof. G. Parmiani - INT Milano).
- 5 Protocol EORTC 18961: Post-Operative adjuvant ganglioside GM-KLH / QS-21 vaccination treatment after resection vs observation of primary cutaneous melanoma (AJCC Stage II, T3-T4N0M0)-A 2-arm multicenter randomized phase III trial. (Responsabile Dott. M. Santinami - INT Milano).
- 6 A phase III randomized double-blind trial of immunotherapy with a polyvalent melanoma vaccine, *CancerVax<sup>tm</sup>* vaccine plus BCG versus placebo plus BCG as a post-surgical treatment for stage IV melanoma (CV - MMAIT - 4 - 001). (Responsabile Dott. M. Santinami - INT Milano).

- 7 Protocol EORTC 18991: PEG-Intron versus observation after regional lymph node dissection in AJCC stage III (TxN1-2M0) melanoma patients: a randomized phase III trial. (Responsabile Dott. M. Santinami - INT Milano).
- 8 Vaccination of high risk stage IIB - C/III melanoma patients with multi-peptides, emulsified in Montanide and IL - 2 versus observation alone. (Responsabili Dott. Santinami, Prof. G. Parmiani - INT Milano).
- 9 Progetto di Ricerca denominato: Analisi della risposta immunitaria mediata da linfociti T in pazienti con melanoma primitivo. (Responsabile Dr. A. Anichini - INT Milano).
- 10 Protocollo di vaccinazione con peptidi derivati da antigeni tumorali, GM - CSF e KLH in pazienti con melanoma in stadio IV su base pilota: (Responsabili D.ssa L. Rivoltini e Prof. G. Parmiani - INT Milano).
