

CURRICULUM VITAE Fabio Luigi Bozzi

PERSONAL INFORMATION

Name and Surname **Fabio Luigi Bozzi**
E-mail **fabio.bozzi@istitutotumori.mi.it;**
Bachelor **Biological sciences**
School of specialization **Clinical and biochemical chemistry**

CAREER

Date (from-to): **2020 – today**
Hospital: **Fondazione IRCCS Istituto Nazionale dei Tumori Milano,**
Role and activities **Dipartimento di diagnostica innovativa Anatomia Patologica 2, Direttore: Prof. G. Pruneri**
Senior researcher - molecular and cellular biologist-:
Development of research projects and writing scientific reports in the field of precision medicine and advanced molecular diagnostics

Date (from-to): **2017 - 2020**
Hospital: **Fondazione IRCCS Istituto Nazionale dei Tumori Milano,**
Role and activities **Dipartimento di diagnostica avanzata Direttori: Dott. Giuseppe Pelosi, Prof. G Pruneri**
Professional collaborator, cell biologist
cytometric and molecular diagnostics of onco-hematological neoplasms

Date (from-to): **2004 – 2017**
Hospital: **Fondazione IRCCS Istituto Nazionale dei Tumori Milano,**
Role and activities **Dipartimento di diagnostica avanzata, Direttore: Dott.ssa Silvana Pilotti**
Researcher, molecular and cellular biologist:
Development of research projects and writing scientific reports in the field of precision medicine with particular "focus" on sarcomas

Date (from-to): **2001 – 2004**
Hospital: **Fondazione IRCCS Istituto Nazionale dei Tumori Milano,**
Role and activities **Dipartimento di oncologia medica, Direttore: Dott.ssa Franca Fossati.**
Researcher, Cell biologist:
responsible for the manipulation of CD34+ stem cells and the study of residual minimal disease in paediatric tumors

Date (from-to): **June 1999 - December 2000**
Hospital: **Ospedale Niguarda Milano, Dipartimento di anatomia patologica,**

Role and activities	direttore: Dott. Marcello Gambacorta. Researcher, molecular biologist: molecular diagnosis of onco-haematological neoplasms.
Date (from-to):	January 1995 - May 1999
Institute:	Consiglio Nazionale delle Ricerche, Istituto di Tecnologie Biomediche
Role and activities	Avanzate, Segrate, (MI), Direttore: Dott. Paolo Vezzoni. Researcher, molecular biologist: study of severe combined hereditary immunodeficiencies (SCID)

EDUCATION

Date:	July 2001
University:	Università degli Studi di Milano
School of specialization	Clinical and biochemical chemistry
Final grades:	70/70 <i>cum laude</i>

Data	December 1994
University:	Università degli Studi di Milano
Degree	Bachelor in biological sciences
Final grades	110/110

FIRST LANGUAGE	Italian
-----------------------	----------------

OTHERS LANGUAGES	English
-------------------------	----------------

Writing skills	Good
Reading skills	Good
Speaking skills	Good

SKILLS

- i) molecular biology techniques applied to research and diagnostics;
- ii) cell biology techniques: minimal manipulations of stem cells for autologous transplants, handling of primary and stabilized cell lines,
- iii) immunoistochemical techniques (from the preparation of paraffin inclusions to the development of immunoistochemical reactions),
- iv) cytometrist with many years of experience in the diagnosis of haematological neoplasms;
- v) writing skills for research projects and scientific work,
- vi) excellent teamwork skills, particularly with fellow biologists, oncologists and technicians.
